

Digital Toggle Dimmer Switch Series

FEATURES

- Compatible with up to 150W dimmable LED /CFL bulbs as well as 600W Incandescent bulbs.
- Convenient operation, on and off toggle switch with separate slider for full-range dimming control, fade-in start up and fluid movement.
- Easy installation, no removal of fins required for multi-gang installations.
- Classic and precise design, good match for creating room's ambiance.
- Slim and compact size for easy installation in a standard junction box.
- Compared with standard switch, dimmable toggle switch provides smooth and precise dimming performance as per your request so as to save energy.
- Low end adjust, allow users to preset minimum light level to avoid flickering at lower dimming levels and realize maximal dimming range.
* (only for DM101S)

SPECIFICATIONS

Item	DM101	DM101S
Rating Input	AC 120V 60Hz	
Rating Wattage	Incandescent 600W, LED/CFL 150W(1.5A)
